

SSC Series Salt Chlorinator By Emaux

with over 35 years of solid experience and expertise together with our devoted staffs, Emaux has evolved from a Swimming Pool and Spa Equipment manufacturer to a company that is focused in Water Technology. A company that provides solutions to clients in water related issues

Your solution in water technology

SSC Series Chlorinator

Saltwater Solutions

Salt Chlorinators, are an alternative means of sanitizing your pool with chlorine using the process of electrolysis.

The electrolysis process is achieved by passing the salt water solution through an electrolytic cell which converts sodium chloride (salt) in the water into chlorine gas which, when dissolved in water become sodium hypochlorite (liquid chlorine).

Safe and respecting the environment, this technology brings you :

- Relaxation: Your pool is automatically disinfected
- Safety: Reduction in chlorine storage and handling
- Comfort: Clean, safe and crystal-clear water
- Health and well-being: Therapeutic, saltwater does not irritate eyes and dry out skin

Features

3 models to choose: 15,25,45g/hr
Self cleaning reverse polarity
Quality titanium cells
Light transformer models
Maximum Working Pressure: 250kPa/36psi/2.5bar

SSC Salt Cell

The SSC's salt cell consists of a series of titanium electrodes with opposite charges. SSC's transparent salt cell housing allows visual inspection of the salt cell plates and enables monitoring of chlorine production.

Power Supply

- Power Supply enclosed in an UV & weatherproof enclosure
- Unit runs cool through design & innovation
- Displays are clear & easy to operate
- Time clock complete with Battery Backup

- ✓ Easy to read Digital Display
- ✓ Simple switch between manual and automatic operation
- ✓ Clear LED Operation
- ✓ Complete Output Control
- ✓ Full Diagnostic Display
